

Unusual Candor.

The following marriage notice, clipped from an English newspaper, is delightfully frank in its climax:

Married—On the 15th inst., at Stoke-upon-Trent, Mr. Joseph Farmer to Elizabeth Winkler, both of Cobridge, in the Pottery, after a tedious courtship of about twelve years.

No Regard for Nothin'.

Not content with smashing records and Huns, the American soldiers are even going so far as to upset the laws of natural dynamics—puttin' the push in Yank.

New Gospel Hymn.

At a New Jersey camp meeting a new song is becoming popular as the old gospel tunes. It is "Telephone to Heaven." Many of the old hymn writers never heard of such a thing as a telephone, but a 1918 audience sits in the grove and makes it ring with the strains of "Central's never busy, always on the line; you may hear from heaven almost any time."—Utica (N. Y.) Press.

What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. WEAK KIDNEYS MEAN A WEAK BODY

When you're fifty, your body begins to creak a little at the hinges. Motion is more slow and deliberate. "Not so young as I used to be" is a frequent and unbecoming thought. Certain bodily functions upon which good health and good spirits so much depend, are impaired. The weak spot is generally the bladder. Unpleasant symptoms show themselves. Painful and annoying complications in other organs arise. This is particularly true with elderly people. If you only know how, this trouble can be obviated.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the inconvenience and pain due to advancing years. It is a standard, old-time home remedy, and needs no introduction. It is now put up in odorless, tasteless capsules. These are easier and more pleasant to take than the oil in bottles.

Each capsule contains about one dose of five drops. Take them just like you would any pill, with a small swallow of water. They soak into the system and throw off the poisons which are making you old before your time. They will quickly relieve

those stiffened joints, that backache, rheumatism, lumbago, sciatica, gall stones, gravel, "brick dust," etc. They are an effective remedy for all diseases of the bladder, kidney, liver, stomach and allied organs.

GOLD MEDAL Haarlem Oil Capsules cleanse the kidneys and purify the blood. They frequently ward off attacks of the dangerous and fatal diseases of the kidneys. They have a beneficial effect, and often completely cure the diseases of the bodily organs, allied with the bladder and kidneys.

If you are troubled with soreness across the loins or with "simple" aches and pains in the back take warning, it may be the preliminary indications of some dreadful malady which can be warded off or cured if taken in time.

Go to your druggist today and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. GOLD MEDAL are the pure, original imported Haarlem Oil Capsules. Accept No Substitutes.—Adv.

CAN BY ANY METHOD YOU CAN;
BUT CAN, CAN, CAN.

HILE a regular canning outfit is an advantage it is not necessary, for any clothes boiler with a wooden rack made to fit the bottom, of strips of wood or lath will answer every purpose.

The important thing in canning is to have complete sterilization of the product; this is insured by good rubbers and a perfect seal.

A kettle, pail or boiler of any kind which will take a few jars deep enough to cover or come to the neck of the jar with water and a good tight cover for the boiler is all that is needed.

Sterilize the cans by placing them in cold water, tops as well, and bring to the boiling point. Dip the rubbers in to the hot water before adjusting them, then with the filled jars, if a Mason, screw it tight, then loosen one-quarter way back. If the covers are screwed too tight, the rubber is forced out of place or the jar may crack, if too loose the water or liquid will be drawn from the can.

The blanching of many fruits and all vegetables is an important part of the preparation. By blanching is meant the dipping into hot water and letting the fruit or vegetable stand a certain time, then plunging into cold water. Blanching shrinks, drives out the gases in the tissues and brings the color to the surface making a more attractive product. The age and tenderness of the product determines the length of time for blanching. If apples are to be canned, peel, quarter and dip for two minutes (if quickly cooked apples are used), otherwise five minutes, then plunge into cold water and drain and pack into the jars. Fill the jars with hot water, seal as mentioned above and cook twenty minutes in the hot water bath. Seal tightly as soon as removed from the boiler.

Peaches, pears and plums may all be cooked in the hot water for twenty minutes. The peaches are blanched one minute; the plums or berries are not blanched.

We scatter seeds with careless hand,
And dream we never shall see them
more.
But for a thousand years their fruit appears
In weeds that mar the land,
Or healthful store.

THINGS ALL COOKS SHOULD KNOW.

ALTHOUGH the trying of new recipes is a most fascinating entertainment for the lover of cookery, yet disappointment is sure to be our portion unless we know how to apply a few simple tests to every recipe before we risk wasting our precious foodstuffs.

Each kind of dish has some basic form. Knowing these, one may make innumerable variations. When one has reached this stage of knowledge, the taste and ingenuity of the cook will have a chance to develop.

In cake making we learn that there are but two kinds of cakes; those using some form of fat and those without, or sponge cakes.

In butter cakes the fat should be from one-third to one-half the quantity of sugar, depending upon the richness desired. Since the butter becomes liquid with heat we must take that into account when adding milk, water or coffee. The total amount of liquid should measure one-half the flour. The amount of baking powder is one level teaspoonful to a cupful of flour, this in using heavier flours like corn or rice flour should be increased to one and a half or two.

When a large number of whites of eggs are used, less flour is needed. Butter or other fat makes a batter more tender, moist and of better keeping quality; it also aids in making a fine grain. Eggs when cooked become thick, hence the more eggs the less flour, other things being equal. When a large amount of sugar and butter are used, increase the amount of baking powder as both these ingredients are heavy.

The following proportions are standard:
Use one-half as much liquid as flour

Dependable Brakes.

There are so many close escapes that dependable brakes should be one of the main considerations of all drivers.

Inspect Steering Mechanism.

All connections of the steering mechanism should be carefully inspected.

Extra Casings for Tires.

An extra casing or two should be purchased for tires.

Comfortable Speed.

A comfortable speed on a good road in a good car is about 20 miles an hour; in crowded streets much less, where nothing interferes, much more.

Look Over Tires Often.

It pays in dollars and cents, as well as personal satisfaction, if one looks over his tires frequently.

Always Good Mixer.

The carburetor is always considered a good mixer.

for murrin and cake butters, remembering that fat is liquid as well as molasses.

One-third as much liquid as flour for soft doughs like biscuit.

One-fourth as much liquid as flour for stiff doughs like bread.

One-third as much butter as sugar for all butter cakes.

One to one and a half teaspoonfuls of baking powder for batters and doughs, increasing to two when heavy flour like rice or corn is used.

One-third as much shortening as flour for pastry.

One teaspoonful of soda to a plat of sour milk.

Have faith in the working out of the destiny of the race; be ready to accept the unaccounted, to use the radius of social progress to cure the ills of the old friction. What if a few mistakes are made? How else shall the truth be learned? Try all things and hold fast to that which is good.

A FEW SEASONABLE SALADS.

OOD salad is always in order at any meal. It is filling, refreshing and nourishing.

Tomato Aspic on Cabbage.—Cook two cupfuls of tomatoes and a teaspoonful of onion for ten minutes; add two tea-

spoonfuls of sugar, a dash of paprika and white pepper and strain. Soak four teaspoonfuls of gelatin in one tablespoonful of cold water and add to the tomatoes; stir until dissolved. Pour into cups and let stand until firm. Serve on finely shredded cabbage with French mayonnaise or boiled dressing. Garnish with green peas.

Stuffed Tomato Salad.—With a sharp-edged spoon scoop out the centers of peeled, uniform-sized tomatoes. Fill with chopped cucumber and onion mixed. Marinate the vegetables in a few tablespoonfuls of French dressing for an hour before putting into the tomatoes, then when they are filled ready to serve top each with a spoonful of thick dressing, either cooked or mayonnaise.

Chicken Salad.—Cut cold chicken into small squares; mix two cupfuls of equal quantity of chopped celery; add a teaspoonful of salt, a dash of pepper, a dash of paprika and a half-cupful of mayonnaise dressing. Serve on shredded lettuce with another half-cupful of the dressing added on top. Garnish with hard-cooked eggs cut into six pieces, or with sliced olives or minced parsley.

Let's not despise just common things,
For here's a truth there is no dodging.
The bird that soars on proud wings
Comes down to earth for board and lodging.
—Nixon Waterman.

EVERY DAY GOOD THINGS.

POUND of dried apricots added to apple, then cooked down with sugar added to make thick marmalade, will be found especially good flavored.

Serve ice cream, using the small scoop; place in sherbet cups and pour over a sauce of strawberry. In this manner of serving, a quart of ice cream will serve many more.

An Egg Extender.—Try out two slices of salt pork cut in small cubes. In this hot fat brown a cupful each of bread cubes and potatoes, also cut in cubes. When brown add two slightly beaten eggs and stir constantly until the egg is cooked. Season well and serve garnished with parsley.

Bread Pudding.—Butter several slices of bread and lay in the bottom of a baking dish; pour over any stewed fruit, like peaches, prunes, or any canned fruit, then add another layer of buttered bread and bake. This may be eaten with fruit juice for a sauce, or, if the fruit is juicy, it will need no sauce.

Cottage Pie.—Put chopped meat with gravy in a baking dish and cover with seasoned mashed potato, made quite moist with milk. Put into a hot oven to heat well and quickly.

Carrots With Lemon Butter.—Cook tender young carrots cut in shoestrings with very little water. When cooked add butter and a little lemon juice, with a grating of nutmeg.

Catarhal Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Scenes of Prosperity

Are Common in Western Canada

The thousands of U. S. farmers who have accepted Canada's generous offer to settle on homesteads or buy farm land in her provinces have been well repaid by bountiful crops of wheat and other grains.

Where you can buy good farm land at \$15 to \$30 per acre—get \$2 a bushel for wheat and raise 20 to 45 bushels to the acre you are bound to make money—that's what you can do in Western Canada.

In the provinces of Manitoba, Saskatchewan or Alberta you can get a

HOMESTEAD OF 160 ACRES FREE

and other land at very low prices.

During many years Canadian wheat fields have averaged 20 bushels to the acre—many fields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley, and Flax.

Mixed Farming is as profitable an industry as grain raising. Good schools, churches, markets convenient, climate excellent. Write for literature and particulars as to reduced railway rates to Supt. of Immigration, Ottawa, Can., or to
